Swingin' It: Junior Lindsey Painter connects with the ball during a doubleheader against Shenandoah University. The **Eagles** prevailed in both games, scoring 3-2 in the first game and 6-2 in the second. The team's current record is 25-14. See full story on page 11.

Presidential Transition Begins

BOV Announces New President's 2006 Salary

By ELIZABETH KRIETSCH Staff Writer

weeting on February 17, the board of visitors announced that William Frawley will receive an annual salary of \$300,000 for his

of \$300,000 for his work as the new president of the University of Mary Washington.
This salary will be comprised of both public and private s, with \$128,460 coming from the monwealth. The remaining \$171,540 will from private funds that are controlled by loard of Visitors.
William Anderson, the current president of

UMW, receives a slightly lower annual salary of \$291,058, after working at the University for 23

\$291,058, after working at the University for 23 years.

According to Richard Hurley, Frawley's salary was decided upon after negotiations between him and the board of visitors.

Frawley's annual salary will also include the use of Brompton, a home owned by the University of Mary Washington.

His contract also allows him to purchase a car which will be paid for with private funds from the UMW foundation.

According to a survey done by the Chronicle of Higher Education, a weekly newspaper that publishes articles discussing issues in higher education, the median compensation for presidents of public research universities and public-college systems this year is \$360,000.

Despite being lower than the national median, Frawley's salary is somewhat in line with the salaries of the presidents at similar colleges and universities in Virginia.

According to information in The Chronicle of lights exception and to be a lost a total the site in the

universities in Virginia.

According to information in The Chronicle of Higher Education, and a Jan. 1 article in the Richmond Times-Dispatch, Rosanne Runt, president of Old Dominion University earns \$364,525 a year. Patricia P. Cormier makes \$252,284 as president of Longwood University.

Inauguration Plans Underway, UMW To Welcome Frawley in October

By KATIE TELLER

Plans are moving ahead as the University of Mary Washington makes preparations for William Frawley's inauguration as the seventh president of the

institution.

The University will officially inaugurate Frawley, 52, to his new post between Sept. 29 and Oct. 1.

This is also the day that family weekend takes place, according to an e-mail sent out by Mona Albertine, rector of the board of

of visitors.

Albertine has appointed a committee to oversee the planning of the ceremony.

The members of the committee are Ranny Corbin, executive assistant to President William Anderson; David Long,

professor of music; and Brenda Vogel, professor of education.

"We are confident that, with their guidance, the inauguration will be an energizing event that will help us all focus on the University's exciting future."

Frawley will replace Anderson after he retires from his 23-year tenure as UMW's president at the end of this semester.

Frawley currently is the dean of George Washington University's Columbian College of Arts and Sciences, and a professor of anthropology and psychology.

He was selected by the board of visitors in late February over two other candidates, Risa Palm, executive vice chancellor and provest of Louisiana State University, and Karen Gould, dean of McMicken College at the University of Cincinnati.

giving everyone updates and allowed for those not at the tournament to track the debaters'

not at the commander progress.

"The blog allowed us access to the support of a great deal of people on campus." Berry said, "Having a sort of electronic cheerleading squad really helped. It was one of the best experiences I've had yet in college."

Tait

Ask The Newsies

hy aren't we allowed out on the balconies of the residence halls?

Good question. Even Tait, an assistant in Alvey Hall, was stumped. Even Tait, an resident

So we sent your question over to two of the experts: John Wiltenmuth, vice president for facilities services and Chris Porter, director of residence life.

Wiltenmuth told us that you're not allowed Wiltennuth told us that you're not allowed on the balconies because, well, it's dangerous. Some of the balconies are on top of deteriorating wood, on others, the wooden balustrades have decayed, and just about all of them have railings that are too short to be in compliance with building codes.

(A balustrade is the little row of columns that goes from the floor of the balcony to the

(A datastrate is an interior of columns that goes from the floor of the balcony to the railing—yeah, we had to look it up.)
According to Porter this applies to the balconies on Virginia, Custis, Madison, and Westmoreland Halls.

In some of the other residence halls,

likeMason, Randolph and Marshall, there's a little bit of a different story

There were policy violations, like smoking rowing items off the balcony and usekeeping issues. Porter said some throwing items off the balcony housekeeping issues. Porter said se students even hosted a barbecue on

Porter told us the balconies were closed on a case-by-case basis by consulting with the Office of Environmental Health and Safety.

Office of Environmental Health and Satety. So, like so many other rules, this one's there for your safety, mostly.

Tait & Teller thought about taking one of their field trips on to the balcony, but we decided not to. In the name of safety.

Tait didn't want to hurt herself. She really

likes to dance

likes to dance.

And Teller didn't want to hobble up on crutches to accept her diploma on May 13.

Bottom line: The balconies are closed for your safety. If you really want a balcony, move to the UMW Apartments, where you're

allowed out there.

Katie Teller and Stephanie Tait are The

Emerson Awarded UMW's First Pulitzer Claudia Emerson debuted her Pulitzer Prize winning book of poetry titled "Late Wife." Emerson speaks to alumna Charmayne Staloff after last fall's reading on Oct. 4, 2005.

Correction

In the March23rd edition of The Periscope, it was stated in the article entitled

"University of Erfurt" that Dr. Petra Steiner grew up in East Germany. This is

incorrect, Dr. Steiner, in fact grew up in West Germany.

According to a press release put out by the office of University Relations, she has been published in many journals and magazines, including: Poetry, The Southern Review, The Georgia Review, TriQuarterly, Crazyhorse, The Louisville Review and New England Review. Emerson is on sabbatical leave this semester and was not available for comment by the time The Bullet went to press. Emerson Wins

Editorial What Are We Fighting For?

Our institution seems to enjoy proving itself to the world. There was the name change, the bell tower... and the next bright idea is a fight

Fight songs usually bring to mind Division I football games bonfires. Mary Washington does not

exist in this realm.

The Massachusetts Institute of Technology has a fight song. Here's an excerpt:

Cosine, secant, tangent, sine,

Three-point-one-four-one-five-

(We did not make this up.) So, the nerds at MIT have found a way to express their identity in verse. Here's what comes to mind for Mary

We're mostly white girls, yes we are! Our Northern homes are not that

The idea of developing a fight song is rather weak in comparison to what officials could be spending their time on. As another pointless endeavor, it makes Mary Washington seem like a wanna-be big school. There are so many other initiatives the University could be pursuing that actually hav an affect on the quality of education.

Fight songs seems to fit athletically driven schools while most students at Mary Wash can't even name the institution's rivals.

It's like we're trying to be something we're not. Why not be happy with being a small, yet exceptional, liberal arts school? Isn't that something to be proud of, without

Let's Play By The Rules

I was amused by Emily Sala's article on the

I was amused by Emily Saaks a structe on the Immigrant Rights march. I do not object to people exercising their right to protest; in fact, I applaud such vital acts of citizenship. The only caveat is those who fight for a cause they know little or nothing about. It is easy to get caught up in the fever of the masses, but a mass of ignorance is never desirable, only detrimental.

People like Sala and the 100,000-plus reopte like Sala and the 100,000-plus immigrants are protesting for the right to medical treatment, childcare, or other programs which citizens of America benefit from (and pay for).

The House Resolution 4437 bill, otherwise

known as "Border Protection, Antiterrorism, and Illegal Immigration Control Act of 2005" is ion in its intentions It is designed to

benign in its intentions. It is designed to "enhance the economic, social and cultural well-being of the United States of America." Yes, one provision of the bill would criminalize immigrants who are here illegally. However, it would not close the doors forever on their ability to re-enter this country legally. The distinction that needs to be made is that between illegal and legal.

Legal immigrants are those who come here

and not only take from our economy and resources, but they also put in. Illegal immigrants are those who come here and take, but fail to put back. This is not a problem exclusive to America. In the words of former President Bill Clinton, "Unless we handle this

President Bill Clinton, "Unless we handle this well, immigration of this sweep and scope can threaten the bonds of our union."

America is a nation of immigrants. This is a point of Sala's that I am highly aware of and grateful for. It is important to foster diversity and nurture the American dream for everyone, but not the expense of the increasingly bulging nerican system.

The more a population increases, the more the The more a population increases, the more the working force grows. The greater the demand of work, the less these jobs will pay. This is detrimental for those who are trying to achieve the American dream. About 80 percent of Hispanics currently live below the poverty line. Sala is right when she says that "at the heart...this is a human rights issue." Let us have a look at the human consequences.

human consequences. Many of the crimes in America are a byproduct of illegal immigrants.

In Los Angeles, 95 percent of all outstanding warrants for homicide are for illegal immigrants, and about two thirds of all fugitive felony warrants are also for illegal immigrants.

John Lee Malvo was the 17-year-old who articipated with his stepfather in the 2002 sniper mootings that paralyzed the Washington area. Malvo was a Jamaican national, a stowaway who was caught and should have been immediately deported. But the Immigration and Naturalization

Service (INS) let him go.

The INS regularly lets thousands of illegal immigrants free. In 2000, roughly 35,000 criminal aliens slipped through the hands of INS personnel.

personnel.

Sala mentioned that many protesters were
"...calling for...respect and dignity for all
immigrants." What respect is there in living in a
country, using up its resources and not paying for
those resources like every other citizen? We need a remedy now before the situation continues to grow beyond the point of resolution.

grow beyond the point of resolution.

The U.S. population is approximately 300 million, with about 11 million illegal immigrants living here. These statistics reflect the dire straits of our nation, and are bellowing for immediate action. HR 4437 is such a remedy.

If we do nothing, or if the protests work and

this bill fails, America will be dealt a blow that it may never recover from

Nicole Halloran is a sophomore

America: Invest In Divestment

Since the summer of 2003, the government of Sudan has been systematically killing, raping and forcing the citizens of the Sudanese state of Darfur to abandon their homes. The U.S. government has declared the action "genocide," but has been reluctant to interfere in any meaningfulty ay.

The United States has taken virtually no action to put an end to the genocide in Darfur except asking NATO and the United Nations to consider further intervention The African Union and government of Sudan's reluctance to have NATO peacekeepers on the ground in Darfur currently make this intervention impossible.

It's time that we as concerned citizens stood up and said enough is enough. It's time we stopped relying on the faltering and reluctant U.S. and UN to stop genocide and take the matter into our own hands.

According to research by Assemblyman Bill Payne and the Genocide Intervention Network Victionia's nemaion assuem the

Bill Payne and the Genocide Intervention Network, Virginia's pension system, the Virginia Retirement System (VRS) invests over two billion dollars in 51 companies that do business with the country of Sudan. In effect, with our pension fund investments, we are helping to fund the genocide in Darfur. This year, the UMW Human Rights Club, along with the University of Virginia chapter of STAND (Students Taking Action Now on Darfur) has started the Virginia Divestment

Campaign which is asking the VRS to divest from Sudan by investing in more responsible companies.

With your help, we can send a clear, decisive, economic message to the government of Sudan and all companies that do business with that murderous regime that we in Virginia will not sit idly by while genocide is committed in Darfur.

Residents of Virginia, please visit www.VirginiaDivest.com to sign the petition and join the Virginia Divestment Campaign in our fight.

For more information on Darfur, also see: www.SaveDarfur.org.

Only You Can Prevent Freaky Weather

By HILARY LUFKIN Guest Columnist

It's April 8th and it's snowing in New Haven,

It's April out and Conn.

I am attending the New England Student Climate Conference on global warming with fellow UMW sophomore Mike Ford. Mike and I have joined 300 students from all over the East Coast at Yale University for a weekend of lectures by students, professors, activists and even senators.

We are learning about the impacts of global warming on our environment, and what we, as students, can do to reverse the effects of this atmospheric disaster.

But if it's snowing in April, what is all this talk about soaring tempera

"Global warming" encompasses the broader problem of global climate change, a phenomenon perpetuated by human impacts on our environment—the greatest impact being the release of carbon dioxide into the atmosphere exponential rates. This, Laurie David (wife of Larry David, creator of "Curb Your Enthusiasm") said in a plenary address, is "the greatest challenge of our generation." She is

But don't get discouraged. There is a revolution going on all over the country, from San Francisco to Kalamazoo to Montgomery County, Md. Cities and campuses are recognizing that climate changes, resulting in colder Northeastern winters, hotter southern summers, and stronger mid Atlantic storms, are

problems that our generation can solve.

The greatest social movements of the 20th century began on college campuses; the 21st century should be no different.

different.

Our campus has the potential to be a catalyst of change to protect our planet for generations to come. The "green revolution," said former Maryland Senator Joseph Tydings when he spoke this afternoon, has "the potential to really make a huge difference."

How? Well, we're orking on that. Mary Washington is an esteemed institution; as students, we can use our intellect, enthusiasm, and the vast resources our University has to offer to participate in undoing the damage undoing done to our environment

While the Climate Campaign is still working out logistics as to how we can make UMW a clean air institution, Mike, the Ecology Club, and I have a few ideas on how we can start

making a difference in our community for the

Club on April 22 at Alum

vironment.
Come celebrate Earth Day with the Ecology
lub on April 22 at Alum Springs Park by
planting trees and
clearing trails and
spread the message
about clean air.
I oak out for

out Look out for Ecology Club events in the fall that can help UMW make a positive impact on our planet, and know that any action we take to Look conserve resources and preserve the wonders of nature is valuable

As students now and leaders in the future, we can do great work.

Set high goals, Mary Washington, and be a part of a revolution that will immortalize our generation and preserve the earth for generations to come.

Hilary Lufkin is a

Freshman Hilary Lufkin and sophomore Mike Ford traveled to Yale University for the New England Climate Conference. The UMW students learned about global warming and ways to help prevent climate change.

Students Shake Up **Earthquake Funds**

By AMAL OMER Staff Writer

On Oct. 8, 2005, my roommate junior Humeira Akbar and 1 woke up to multiple instant messages asking if our family was okay. Many away messages of our friends read "Pray for Pakistan" with links to news articles.

"I had absolutely no idea what they were talking about," Akbar

Both of us immediately called home to

Both of us immediately called home to Northem Virginia to learn from our parents, natives of Pakistan, that there had been a massive earthquake in the northern part of the country of Pakistan.

"The second I saw the effects of it on TV it was a very different feeling—it was almost like it hit home and this event really hit home for me." Akbar said.

Akbar, who was born and raised in Pakistan, had relatives in

AFGHANISTAN PAKISTAN At least 30,000 people are feared dea after an earthquake of magnitude 7.7 struck northern Pakistan and India on October 8 2005.

-First Person-

Islamabad, the country's capital.

She was concerned for her family in Islamabad, where estimated death tolls were rising rapidly, though fortunately learned they were safe.

learned they were safe.
"At that time the number was 20,000 [deaths], within a few days it went to 30,000 [deaths]," Akbar said.

It has now been estimated that 86,000 people have died from the earthquake, leaving over 69,000 people injured, and approximately four million homeless. There are also many missing persons, as well as unidentified bodies.

The 7.6 wasnitude earthquake also hit parts of Afghanistan and

unidentified bodies.

The 7.6 magnitude earthquake also hit parts of Afghanistan and India. The earthquake's epicenter was in proximity to Muzaffarubad, capitol of Azad Kashmir, where there was the greatest amount of destruction.

To help raise funds for the relief efforts as well as create

awareness of the earthquake, the Islamic Student Association organized a fundraiser. Four of the six executive members are of Pakistani descent, including Akbar, the president and myself who serves as the historian.

We had the media but for like a week and after that there was

"We had the media but for like a week and after that there was like nothing, and it was almost as if people forgot these people still need help," Akbar said.

Last Thursday, the ISA sponsored a variety entertainment show in Great Hall, which included performances by the UMW men's a capella group INVOICE, UMW Breakers, and an Indian dance also performed by UMW students.

The show, which had a minimum entrance fee of \$2, raised a statlate(\$313.60)

total of \$313.69.

In the days preceding the event, ISA set up a table in the Eagle's Nest to promote Thursday night's show and also collect spare change from those passing by.

Within the first day of sitting in the Nest, ISA collected \$101.32. the Nest, ISA collected \$101.32.

Over the next few days, the group raised another \$177.75. After Thursday night's event, which had about one hundred people attend, ISA raised a total of \$592.76.

Since then, the community has asked ISA where they could contribute more money, and also

contribute more money, and also received a donation of \$100 from an

ISA publicity chair sophomore Michelle Welcher was overwhelmed by the contributions made by UMW students.

made by UMW students.

"This was something that happened over six months ago and there is still such a huge need and people were just pouring out generosity." Welcher said. "To see people helping us out so much I could visualize exactly where that would be able to help."

would be able to help."

Welcher even found the abundance of last week's tour groups of admitted students to be helpful in the cause.

"Parents give money, college

Last Thursday, UMW's Islamic Student Association sponsored a show in Great Hall that raised \$813.69 for the earthquake that hit Pakistan. Entertainment included an Indian dance performed by UMW students (left to right) sophomore Sulava Gautam, senior Michele Carneiro, sophomore Sukriti Gujral, sophomore Yen-Nei Shek and freshman Sabah Bhatnagar.

Walk-a-thon Calls For **High Chance of Giving**

By ANDREA CHRISTIE

Staff Writer
With the Walk-a-thon to help save the Copprome orphanage in Honduras this Sunday University of Mary Washington junior Shin Fujiyama's efforts to mobilize the entire UMW campus and Fredericksburg community inspired

campus and Fredericksburg community inspired many to take action of their own.

Students Helping Honduras, a non-profit group of 30 students that Fujiyama formed to raise money for Copprome, have currently raises 88,000 out of the \$100,000 needed to keep the orphanage open. Once \$33,000 is collected, however, Doris Buffet will triple this amount. The \$8,000 collected so far does not include the donations that students, faculty and other teams have collected for the Walk-a-thon.

Fujiyama estimates that over 30 groups have signed up to join in the Walkathon, including residence halls, academic departments and student organizations on campus. He hopes for

student organizations on campus. He hopes for over 500 participants for the event, including 50 to 100 volunteers from the college of William & Mary, where his sister attends and leads a branch Mary, where his sister attends of Students Helping Honduras

"The University of Mary Washington "The University of Mary Washington community is coming together to save Copprome," Fujiyama said. "April 23 is going to be a historical day." Fujiyama has declared this week "Copprome Spirit Week." Each day a different group, such as Una Voice and the Latin Dance Club, performs at the fountain and hands out flyers to promote the Waltathan.

Walkathon.

"The children are praying and cheering us on,"
Fujiyama said. "The Copprome staff were so
overwhelmed when they heard that UMW is
working together to help them. They want to put
up a plaque in our honor. Teams and individuals
who play a significant part in the Walk-a-thon
will be forever remembered by the orphans by
having their names engraved on the plaque."
To help raise money for the orphanage many.

having their names engraved on the plaque."
To help raise money for the orphanage, many student groups have also planned events. The UMW swim team held a pingpong tournament, which raised \$500. This past weekend, Circle K held a car wash, which brought in \$65.

"I think the walk is an awesome idea and seeing pictures Shin took of the little kids at the me Orphanage has made me work harde

\$35,000 \$28,000 \$21,000 \$14,000 \$7,000

To date, Students Helping Honduras have raised \$8,000 out of \$33,000, which will be tripled if reached. \$100,000 is needed to keep the Copprome Orphanage open.

make this a successful event," junior Anh Nguyen said. "They are so cute and it makes you feel so bad for them because they have the possibility of becoming homeless if their shelter gets shut down.

But beyond the Walk-a-thon, Fujiyama has lso inspired senior Anne Claire Shilton to plan nd perform a recital in order to raise money for Copprome.

After studying a semester aboard in Chile,
Shilton knew she wanted to do something to help

me people in South America.

"Shin is a good buddy of mine," Shilton said.

"We were talking about life in Latin America and
the orphanage and I knew I wanted to get
involved."

Shilton, who plays the violin, decided to plan

Shilton, who plays the violin, decided to plan a recital and reception to follow. The recital will be held on May 14 in Great Falls, Virginia.

She hopes to one day play the violin for the orphans in Copprome.

"I remember as a freshman feeling like this campus had no motivation on a lot of things and it's been really cool to see people get mobilized on one issue," Shilton said, "What's really neat is used. S to see Shin become so worried about social inequality and get so involved and mobilized and now he's mobilizing everyone else."

Uncle Sam's **Wants YOU At** Tonight's Dance

By ELIZABETH PHELPS Staff Writer

As of this past Tuesday, only 117 students have purchased tickets for the Spring Dance that will be held at Uncle Sam's in Central Park tonight.
"The number was much lower than what we had anticipated," said University of Mary Washington junior

Sara Byrd, coordinator of the event.

Sara Byrd, coordinator of the event.

Tickets were initially \$40 for a single and \$60 per couple.

As of Tuesday tickets were reduced to \$5 before 10 p.m. and \$10 after 10 p.m. They are available at the Nest until 9 p.m. on Thursday night or at the door at Uncle Sam's.

According to Byrd, in order to compensate for money lost there will not be a full dinner buffet, jazz band or transportation for students from Seacobeck to Uncle Sam's.

There will still be a DJ and various appetizers at the event.

Attire is similar to last year's formal--suits for men and anywhere from cocktail to formal dresses for women. There will be no T-shirts, shorts, flip flops or hats allowed.

"We want to prove to the school and to the faculty and everyone else that we can have an event 18-and-over with alcohol and be respectful and not trash the establishment,"

Byrd said. "We've had a lot of problems in the past with people drinking." people drinking."

Byrd, the newly elected Legislative Action Commit

byrd, the newly elected Legislative Action Committee chair, took on the project after the annual Spring Formal, hosted by Class Council, was cancelled.

According to senior Kristen Borkoski, class council vice president, the campus group explored many other options for new locations, including vineyards, downtown banquet halls and Richmond museums. However, neither Class Council nor UMW administration could make the event happen. happen

happen.
"We couldn't find a good way to make sure that everyone would be safe, in case anyone were to drive to the events," Borkoski said, who is also the vice president of the senior class and a SGA executive coordinator. "We wanted to avoid drinking and driving as much as possible."

The revised spring dance will be held in the upstairs ballroom of Uncle Sam's in Central Park on Thursday, April 20. Doors will open at 8. (20.0 pm. and exercisors under

ballroom of Uncle Sam's in Central Park on Inursday, April 20. Doors will open at 8:00 p.m. and everyone under 21 must be in the ballroom by 9:00 p.m.

"It's actually really great inside," Byrd said. "It's huge. It's actually the largest bar or club type atmosphere between Richmond and D.C. There are several huge bars inside. There's also a big restaurant and the location we're having the internal barshape. it is upstairs, in two banquet halls."

venue.
"Uncle Sam's has a nice
ballroom, from what I've heard," Henderson said. "There
are pros to not having it on a boat: more people, you can get
there whenever you want, and you can leave whenever you

While there will not be a full dinner buffet available to the attendees, there will still be appetizers, fruit and

the attendees, there will still be appetizers, fruit and vegetable trays and desserts.

"Now students can do their own things for dinner, whether it be going out to a local place, making it at home or just going to the Nest," Byrd said.

A cash bar is available for everyone 21 and up. Wristbands will be provided for everyone underage. Gratuity has been covered for all drinks.

Byrd, who has planned many events and served on committees in high school, is financing the \$10,000-plus event.

"It's a great chance to dress up since we don't have that many occasions," Henderson said. "I'm going and I'm bringing a lovely date." Tickets will be available in the Eagle's Nest this

rickets will be available in the Eagle's Nest it week and from Byrd until 9:00 p.m. on Thursday night. This aspect of the spring dance has eased some of the anxiety about purchasing tickets for those who wish to go, since space was so limited for previous spring formals.

"When I transferred here last year, I saw

people waiting at the Nest in an extremely long line," Henderson said. "By the time I figured out what they were waiting for, tickets were already sold out."

Byrd encourages all UMW students to attend the event, which she called a temporary alternative to the original Spring Formal.

"It's just something for students. That's the only reason I'm doing it," Byrd said. "I'm not really doing it for any personal reasons other than I didn't get to go last year, I wanted a spring formal, and I want to make sure we get it hack for next year."

kids don't have money, so we would ask the tour guide if we could address their group and we would give them a brief introduction to our program and cause," Welcher said.

According to Welcher, many parents of the tour groups donated singles, five dollar bills and one father gave a 20 dollar bill.

Welcher also found this tactic to attract UMW students to donate their

Weicher also found this factic to attract UMW students to donate their spare change.

"One girl pulled out a zip-lock bag full of change and just dumped it in our bank box," Welcher said.

Though ISA is still in the process of narrowing down their choice of charity, they are giving serious consideration to Mercy Corps.

Mercy Corps, a worldwide organization that extends its work to over 40 countries, works in geographic locations such as the Middle East, Balkans and Americas. The organization's mission is to help with emergency relief efforts and economic development.

Akbar looked into Mercy Corps upon a suggestion from a friend, who regularly contributes funds to the organization.

"I looked into their statistics, how much they have done already and what they plan to do, and they looked very appealing," Akbar said.

Charity Navigator, a Web site that guides people in donating their money responsibly, rates Mercy Corps as a four-star charity. It also shows Mercy Corps as having 92 percent efficiency, the percent of funds that are put directly towards their programs.

As a group, ISA was most impressed by Mercy Corps's "Cash-for-Work" program.

"They have 100 employees of their own and having hired 9,000 survivors from the earthquake, they pay these survivors to

survivors from the earthquake, they pay these survivors to build their own homes, and they're also working towards repairing schools, bridges, and clinies, and have helped about 65,000 people," Akbar said.

The United Nations has estimated the rebuilding process will take approximately ten years. In a news release, the Asian Development Bank, an organization which focuses on helping improve the conditions of people living on less than \$2 a day in Asia and the Pacific, stated the costs of reconstruction will cost roughly \$5.2 billion. Part of the money is needed to strategize the

earthquake fund, contact the Islamic Student Association at

contribute to the

ISA@umw.edu.

roughly \$5.2 billion. Part of the money is needed to strategize the reconstruction, while \$3.5 billion of the estimated costs are needed for physical repairs.

With such statistics known of the devastation and the lack of media coverage, ISA's goal was to educate students on campus about the tragedy in hopes of inspiring others to join the relief efforts.

"Since the earthquake was baek in October, I think most people have already forgotten about it," said Sulava Gautam, vice president of ISA "So this fundraiser was a means of making money but also making people realize that there are still millions suffering from what happened and need help rebuilding their lives."

Bands Rock For Living Wage

By JOHN SHERIDAN Staff Writer

Flailing limbs, bodies pushing and shoving in a swarming mass that generally doesn't agree with authority. Dorks, rhinoceroses, and grave robbing abound. No, it is not the apocalypse I describe. It is the punk and metal show that erupted in the Underground on Thursday, April 13 as a benefit for the living wage movement in the Frederickshure area.

13 as a benefit for the fiving wage movement in the Fredericksburg area.

Five bands answered the call for this charity show. The audience was sparse, but they abandoned their chairs to stand up and give the bands

attention their attention throughout the night. A \$2 donation toward the living wage effort was encouraged at the door, and each band reiterated reiterated that, though punk rockers and metalhead teenagers aren't the biggest spenders, \$2 is the least they could do.

The sight of five kids bouncing off one another like sweaty bumper cars just made the music that much more entertaining.

First commence rocking was Distorted Truth, a band of youthful punks from the Vienna area. They brought forth the aggression and angst one expects from punk rock, but with the secret weapon of a female lead singer for some additional edge. Their sound was very traditional and the desired their sound was very traditional edge.

additional edge. Their sound was very traditional punk, playing through various original songs with some Anti-flag covers to boot. The next act was something no one could have expected, and could only be described as not simply music, but a stage performance. Two men, the properties of the stage performance. Two men, the properties of the stage performance and lice mediators. simply music, but a stage performance. INVIDENT, two microphones, a guitar and a loop machine: by their powers combined they are No Sunlite For The Media, a pair of UMW students who claimed that this was their fifth year of working together. With relentless white-boy rapping,

y-rock guitar riffs, and a loop machine oing out drum beats, they produced a sound ar to early Beck material: weird, wild and hard to resist dancing to. They sang songs about robots, rhinos and who knows what else, but they certainly held the attention of the audience. Someday they will be something great; what exactly that something will sound like, no one

Up until the GRE, the audience was a second or the complexity of the comp the GRE, the audience was generally inactive and unresponsive, but once they broke into their first tune, most of the populace had surrounded the stage and were at least moving around if not full-

was our first show. Judging from the crowd was our first show. Judging from the crowd response and what everyone told me, it came off really well. We kept the energy going, and from that respect it was a good show. We're just going to keep getting better and better, and keep writing songs. Definitely next semester, the Grave Robbing Extravaganza will be back in full force."

And who can't wait for that? Next year, be prepared for more punk, more rock, more metal, and even more rallying support for a higher living wage.

Novel Brings Unexpected Readability

By CARA SCHULZ Staff Writer

Satirical war novels are not necessarily at the top of any typical female's summer reading list. In fact, bombs, blood, and bawdy relations with prostitutes would be enough to deter most women from continuing past the first chapter, but in the case of "Catch-22" by Joseph Heller there couldn't be a better idea than

"Catch-22" by Joseph Herica under contain to keep reading.

The novel accounts the trials and tribulations of Yossarian as he begins to understand the one catch to getting out of the army during World War II: Catch-22. Catch-22 states that anyone who continues to fly more missions must be crazy. If they are crazy, all they have to do is ask to be grounded and they don't have to fly anymore. As soon as they recognize the dangers of flying,

missions.

"Catch-22" has something to offer everyone: drama, humor, scandal and romance. I have to admit, I was skeptical upon picking up the novel. Blood and guts are not really my cup of tea. But this book is funny, and not just appreciative-side-note-of-comedic-statement funny, it's laugh-out-loud-have-people-stare-at-you-in-the-coffee-shop funny; I would know, it happened to me.

Who couldn't help but laugh at Yossarian's follies?

"'Hasn't it ever occurred to you that in your promiscuous pursuit of women you are merely trying to assuage your subconscious fears of sexual impotence?'

'Yes, sir, it has.'

'Yes, sir, it has.'
'Then why do you do it?'

"To assuage my subconscious fears of sexual impotence."

All Yossarian wants to do is to be grounded, but Colonel
Catheart keeps raising the number of missions the men have to
fly because he has his eyes set on being a general.

Yossarian feigns illnesses to evade the missions and ends up
in the hospital, where he falls in love with Nurse Duckett, one of
many females he finds himself adoring throughout the novel. He
spends much of his hospital stay trying to get her to have sex
with him.

with him.

All of the characters in "Catch-22" emanate inescapable idiosyncrasies that have overwhelming influences on the way Yossarian interacts with each of them, only adding to the drollness that captivates the reader.

To top it off, Heller utilizes erudite vocabulary, which, I have

Spctlight

By WILL COPPS Assistant Entertainment Editor

When one talks of a band overcoming adversity to make it big, they might mean that the band had to live through hard financial times, or had a grueling tour schedule. The next time I hear someone make that comment about a band, I plan to ask them if their bassist was born on a cult compound. Or was it their organist that grew up

compound. Or was it their organisms and in a mortuary?

The Black Angels are the ones who have overcome adversity. Their self-dubbed genre of "Native American Drone Rock and Roll" is even the beart of cowboy country, Texas.

"Native American Drone Rock and Roll" is even coming from the heart of cowboy country, Texas. Ironic? Yes. Fantastic? You know it. Now, as a disclaimer before you read further, this is most definitely psychedelic drone rock. A general feeling reminiscent of The Doors is throughout, but with songs that can drag on longer than the most experienced jam bands (Three hour sets? That's right, they've done it.) But if that sounds even remotely like your cup of tea, this just might be one of your new favorite up-and-coming bands,

The Black Angels' first full album release,

"Passover," not only fulfills the promise of their first EP (and includes the three best tracks) but exceeds expectations for such a new band. The songs sometimes seem as if they are long jams, but the excellent musicianship works well to keep you interested.

The combination of thick bass sounds, a drone machine, plodding drums and drawn out vocals give this album a very earthy feel. It is both unique and well done. The band needs to come to grips with it's strengths before it can really make it big time, but they seem to be well on their "Passover" is an excellent snapshot of a new

rassover is an excellent snapshot of a new talented band at an exciting time.

Check out some of the band's music on www.myspace/theblackangels. I especially recommend "Black Grease."

Novel Is Perfect Summer Read

to admit, is what enthralled me in the first place. Leaning away from the typical blood and guts action of war, Heller uses language intelligently, which helps broaden the scope of his audience, pulling in female readers that might not have otherwise been so interested.

If you're looking for a page-tuner that will leave you

your pants one minute, and the sends your heart racing with it action packed adventures the next, "Catch-22" is an ideal choice to add to your summer reading list. It is a classic available at all book stores.

Laughter Plays started to incorporate the audience more and really make them a part of the show, you could just feel the energy in the

The actress was also familiar with the strong sexual content that Shakespeare included in his

Freshman Mitch Macdonald, who played Costard, agreed that the play went really well, and even admitted that he had

that the play went really well, and even admitted that he had his doubts in the beginning.

"The performances went much better than expected," he said. "This isn't to say that nobody thought it would be good, but as it is Shakespeare, we were unsure of how the audience would handle the language."

Both Pilger and Macdonald enjoyed working with

Both Pilger and Macdonald enjoyed working with Assistant Professor of Theatre and Dance Helen Housey, the director of "Love's Labour's Lost," whose choice of the lesser known Shakespearian work was a daring one.

"As a freshman, I had only heard stories of Helen," Macdonald said. "I can say honestly that she has gotten me to do perhaps the most work I have ever done, and yet the load felt very light. She is consistently instilling her sense of nide.

felt very light. She is consistently instilling her sense of pride in the quality of work we have achieved in this show

in the quality of work we have achieved in this show."

Pilger agreed.
"I love working with her. She is a very supportive director, but she also stretches you as an actor, makes you grow and consider things you hadn't even thought about," Pilger said. Theater-goers of Shakespeare's time may not have greeted "Love's Labour's Lost" with open arms, but for today's audience, it seems to be a comedie work that many can appreciate and enjoy, especially when performed with as much enthusiasm as this show was.

Into Love

By BECKY WILLGING Staff Writer

What do you get when you combine sarcastic comedy with What do you get when you combine sareastic comedy with a heavy dose of sexual innuendo? No, not every episode of "Seinfeld," but good guess. Instead, you get this year's spring play "Love's Labour's Lost," one of Shakespeare's lesser-known yet highly entertaining dramatic works.

Against the simple set and transformed by twentieth century fashion, the actors put on one of the most entertaining and convincing shows seen on the Mary Washington campus in a while What could have been a boring and uninspirition.

in a while. What could have been a boring and uninspiring night was turned into one of laughter and humor. The audience wed themselves to forget the fact that they were watching ay and got swept up by the storyline and its clever

The movement and interaction between the characters seemed natural and unrehearsed. From the free-spirited Mote seemed natural and unrenearsed. From the free-spirited Mote jumping and rolling around the stage, to the dramatic gestures of the Lords toward the Ladies and the far-from-subtle sexual suggestions, the motion of each of the actors aided in the understanding of Shakespeare's difficult language and prose. None of the characters hesitated to use a pelvic thrust or hand gesture to imply their specific desires in regards to characters of the opposite sex. It was this type of humor that left the audience rolling with laughter throughout the night

left the audience rolling with laughter throughout the night

Sophomore Mary Pilger, who played one of the princess of France's ladies, Maria, was pleased that everything came together smoothly for the performances.

"Overall, I thought the show went really well," she said.

Top 5 Worst Things About The Beach

By BETSY CRUMB Editor in Chief

As summer approaches, there's nothing better than grabbing your suit, a great book, and some sunscreen and heading out to the beach. Relaxing in a fold-out chair while drinking a cold beer is a great way to start, followed by some sun bathing, and maybe (if you are south of New England) even a swim. But just everything else, with the ups come the downs too. Here are the top five worst things about going to the beach.

5. Rocky 11des:
So you are finally all nice and hot and ready to traverse into the cold water, then something stops you—the array of sharp rocks leading up to the ocean. You carefully step your way around them, looking like a thief in a laser-alarmed room, and run into the icy wave. The wave takes you upward, you're sailing high, then when you drop back down, your foot stumbles on something—more rocks. Sometimes you just can't win.

4. Sand in the Pants:

4. Sanu in the Fairus. Laying and playing in the sand is always a highlight of the beach. And who doesn't like to make sand castles? But when you get home, pull off your suit and six tons of sand falls out, you remember why beach towels are a really great invention.

3. MIS-SIZEG SUITS:
Now as a feminist, I am all for wearing what you feel most comfortable in. So if you feel most comfortable in a string bikini, by all means go for it. But I have to wonder if it's really comfort that leads the 50-year-old woman to put on a crocheted two-piece and chase her children around in it. Here's a "subtle" hint: If it doesn't fit, get one that does—you'll feel more comfortable and you'll ease the eyes of your surrounding beacherer.

2. Sex on the Beach:

No, not the drink. I pretty much hate public displays of affection in all walks of life, but on the beach is by far the worst because it's one clothing untying

because it's one clothing away from full-out public intercourse. Not to mention, there are people of all ages on the beach and is it really appropriate for Itus Johnny to be seeing you orinding with your on the grinding with your boyfriend on the watermelon beach towel? Seriously, get a

1. Seagulls:

Perhaps my greatest love of life is food, and seagulls severely interfere with this

severely interfere with this love while at the beach. Actually, maybe what's worse than the seagulls themselves is that jackass who throws a piece of their sandwich and brings 'em all flying. Once they're there, there's no getting rid of them, so you're stuck with that God-awful screeching noise and just down right annoyance. Don't be that kid who throws the bread—if you are, I hope karma comes back to kick you in the ass while a seagull poops on your head.

Randolph Roaches Recede

By CASEY PHERSON Staff Writer

According to residents of Randolph Hall, the roach restation that plagued the residence hall last semester has not en a prominent issue this semester. However, the roaches have not completely vacated the

building.

Fifth floor resident and sophomore Melissa Bjorklund claims

that she has seen several of the insects this semester.
"When we first came back from break we saw a few. We thought 'Oh, this is ironic. We just went through this,"
Bjorkland said.

thought 'Oh, this is ironic. We just went through this,"
Bjorkland said.
Bjorklund attests that while she has seen a few of the insects
crawling around her room, the problem is not nearly as bad this

We saw a few, but it hasn't been a huge issue," Bjorklund

said.

Last semester, Bjorklund was one of the many students in Randolph Hall whose furniture had become homes for the brown bandit roaches. Fellow hallmate sophomore Alison Samuels's room was also

a haven for the insects last semester.
"Our suite was pretty much overrun by them," Samuels said.
"[This semester] I haven't seen any."
Facilities Services could not provide an exact number of

Randolph roach-related work orders from last semester versus

Randolph roach-related work orders from last semester versus this semester.

Since the exterminators do not use "instant kill" poisons, they rely on baits which they have set to attract the remaining bugs, which will, in turn, kill the insects.

"[It is] a common misperception that the pest control contractors can widely apply aerosols or other chemicals throughout a building," said John Wiltenmuth, associate president for Facilities Services.

Wiltenmuth explains that integrated pest management laws maintain strict conditions as a means of protecting people from the possibly dangerous chemical exposure.

Sophomore Jessica Gochman, who claimed that the first floor had bonded over the roach incident, has also seen a significant decrease in roach related activity on the first floor.

"We have only seen one," Gochman said.

While the roach infestation of 2005 seems to be long gone, Christine Porter, the director of residence life and housing, said that pests are inevitable in a residential setting.

She recommends students take precautions to limit the growth of the pest problem.

growth of the pest problem.

"Ensuring that food items are kept in a sealed container, that

"Ensuring that food items are kept in a sealed container, that no leftover food is left out in the open, that trash is taken out regularly, and that laundry is not allowed to pile up are some things that anyone can do in any living situation to help reduce pests," she said.

Projector Missing From Monroe

Police Say Connection To Jepson Theft

By KATY BURNELL Assistant News Edito

Campus police learned Monday morning that a \$2,400 Epson projector was stolen from Monroe Hall over the weekend, which they believe may be connected to the theft of a similar projector from Jepson earlier this

unonth.

University of Mary Washington Police Lt.
David Cooper said the police are currently
pursuing multiple leads and suspects in the
case of the first stolen projector, but the
investigation has not yielded any formal
charges to date.

Assistant Professor of Paris

rges to date.

Assistant Professor of Political Science,
hallyn Cooperman first discovered that the
jector was missing from Monroe 103 when
went to prepare a power point presentation

for her 10 a.m. public policy class on time the occurred "I went to find the remote to turn on the machine, but there was nothing there" time the primary

Cooperman
"The apparat

"The apparatus was stolen, tragically."
She said she went down the hall to alert Jerry Slezak, Monroe Hall's

Monroe Hall's in struction al technology specialist who immediately called campus police to report the theft. Slezak, who is currently in his seventh year as the building's structure to the surpersection of the surpersection of the magnitude before.

"Stuff goes
missing from Monroe from time to time, but
nothing this big has ever been stolen before,"
Slezak said.
According to Cooper this is not the first

n. public policy class on m. dd the remote to turn on the there was nothing there" primary suspects of a projector thefts have occurred at Mary Washington, but it is the first time that college students have not been the primary suspects of a projector theft investigation.

"The last time something like this happened was about five years ago," Cooper said. "Three projectors were well alist the form time to time, but alist the first time that college students have not been the five suspects of a projector theft investigation.

"The last time something like this happened was about five years ago," Cooper said. "Three projectors were stolen in a row around the Superbowl," he said. He says that at that time campus the superbowl, and the superbowl.

-Jerry Slezak

He says that at that time campus police believed Mary Washington students had taken the projectors to watch the football game, but these suspicions were never confirmed and police have yet to recover

the missing projectors.

Cooper said that UMW's investigating Officer, Wallace Janish, will consider if the stolen projectors could be connected to the rash

of laptop unces and springs, "As a good police officer you absolutely need to consider the possibility that this might be related to previous thefts," Cooper said. "Particularly because the individuals charged with stealing the 18 laptops from duPont are still free. They are still walking around Fredericksburg."

still free. They are still walking around Fredericksburg."

Campus police recovered the \$35,000 worth of laptops stolen from duPont this January, but the three men charged in connection with the theft are currently free on bond.

Cooper said the rate of property theft on campus is higher this year than it has been in previous years.

"Just based on personal recall between laptops and everything else we have had kind of a run this year," Cooper said. "But it's not just petty theft. We've definitely had some internal problems with student leaders, embezzlement, that kind of thing."

To combat the rise in property theft, Cooper said campus police should be even more attentive during building walk-through, particularly late at night.

"You have to target your problem area," Cooper said. "My answer as a lieutenant is I want you guys out there doing foot patrol."

Sexclamations.

See Ya Next Fall?

By Betsy Crumb and Elz England, wanton sex goddesses

As finals approach, a looming question As mans approach, a forming question plagues many twitterpated couples: Do we keep dating through the summer? If yes, does that mean no kissing, no touching and God forbid, no sex for the next three whole months?

'I have needs. I have a libido-a really big one! We have a few suggestions for those of you who aren't ready to ak it off, but aren't willing to enter a monastery/nunnery either

Phone Sex
Having a significant other halfway across the country provides the opportunity for phone sex that, unlike those hotlines advertised on late-night TV, won't cost you 99 cents each minute—unless you have

late-night 1 v, won't cost you 30 cents sauth minute - minutes you may be a crappy cell phone provider.

This isn't skeezy; it can be quite sensual. Discussing what you would do if you were in the same room together to ravage each other runs a close second to actually being there. Plus, just because you're not allowed to touch other people doesn't mean you can't touch

Cyber Sex

The same deal as phone, with the possible addition of a webcam.

Another aspect of the World Wide Web is sending naughty or erotic messages. For example, one of us enjoys sending incomplete erotic situations via IM with the explicit intention that they be added to and returned. Repeat until cybergasm is reached.

Open Relationship

The nature of an open relationship is that it cludes strict definitions because it's about what works for both of you. Since

open relationship.

First, as always, communication is key. Don't just discuss this with your buddy down the hall; being as open as possible will ensure

that you're both on the same page.

Next, discuss the details. Or don't. State

whether or not you'll want to hear how gorgeous James is, or how great Jenny's boobs are.

gorgeous James is, or how great Jenny's boobs are.

Jealousy is the issue here. Even the most secure person may feel inadequate listening to the dirty details of that "amazing hook-up." On the flip side, you may think they are hiding something if they keep everything on the DL.

Also, how far is this open relationship going to go? Is this only a physical thing or can there be a significant emotional component? Dating and hooking up are two very different things.

Finally, even if you don't want to hear the details, sex with multiple people always carries a great risk. If you care about the other half of the open relationship you'll be honest about the number. Also, when you return to school, you should get tested. Hey, you can make it your first date back as a monogamous couple. Celebrate your clean bill of health with a Carl's chocolate shake afterward.

Overall, there's no right or wrong way to tackle an open relationship, just always stay cognizant of your partner's feelings. However, if you really want to break up, don't try and disguise it with a plea for an open relationship. We understand, you're trying to spare their feelings, but it's only going to hurt them more in the long spare their feelings, but it's only going to hurt them more in the long

We would like to invite our readers to participate in our end-of-the-year column. Please send us your most embarrassing, funniest, or best hook-up stories and we will print them with your year and sex. No names will be used, and we ensure no one other than us will know the name (if you send it along).

For the past two years, my father has been riding his bicycle to work

By leaving his car at home every morning, he's able to save money on gas, help the environment and improve his health.

But that's not to say there haven't been problems with

But that s not to say there naives in been proteins with y dad's newfound mode of transportation. Like the time he forgot to bring his dress shoes and had to hide behind his desk for the whole day so his co-workers wouldn't see his sneakers.

And one day last winter he forgot he was wearing the ski mask my mom gave him to keep out the cold. He wandered around the office with a black face mask on, peculibly creating a security theat.

wandered around the office wind a black race miss on, possibly creating a security threat.

Despite these minor bumps in the road, my dad loves his commute to work. It seems unbelievable to most people that a man in his fifties with a car would choose to use a form of transportation most people give up once these his consent, areade.

to use a form of transportation most people give up once they hit seventh grade.

But biking to work has changed his life. He now believes that the solution to all of our problems—obesity, air quality, oil prices, the crisis in the Middle East—lies in Americans bicycling to work.

It's probably not that simple, but I think this would be a start to a whole new way of looking at transportation.

I know that not everyone lives close enough to make riding a bike to work feasible. But Americans—myself included—are too reliain to cars.

included-are too reliant on cars

We've built communities and shopping centers— hello, Central Park—that are virtually impossible to traverse as a pedestrian. We've built a car-driven culture that is now threatened by rising gasoline prices.

nat is now interatened by rising gasoline prices.

And gas prices are not going to get any cheaper.

According to an article published on April 3 in the
Detroit Free Press, economists at the U.S. Energy
Information Administration believe that the oil supply
will drop over the next 2 years, while demand for oil will
grow to 3.5 million barrels a day thanks to an increase in
oil use in developing nations like China, India and
Brazil.

So don't buy that SUV expecting gas prices to go

So don't buy that SUV expecting gas prices to go back to the good o'l days.

President Bush and Republican senators seem to believe that the answer to our fuel woes is to drill in Alaska's Arctic National Wildlife Refuge.

The Bush administration seems intent on drilling in Alaska's 8 million acres of pristine wildemess, one of the last places on earth free from human interference, describe the feet that the amount of oil in the Arctic describe the feet that the amount of oil in the Arctic.

the last places on earth free from human interference, despite the fact that the amount of oil in the Arctic Refuge is a drop in the bucket compared to global demand for oil.

A July 2005 report from the EIA stated that at peak production, Arctic Refuge oil would make up only .08 percent of world oil production and only .03 percent of U.S. oil consumption. Drilling in Alaska is short-sighted. It won't make gas cheaper, and it won't solve our energy

Why not take the money that could be spent on Alaskan oil rigs and put it toward developing cars that don't rely on oil?

tors can create iPods smaller than cre If inventors can create iPods smaller than credit cards that can hold hundreds of songs, I have to believe that they can create vehicles that run on alternative fuels. We just need to make it a priority.

An energy crisis may seem far off in the future, but I believe we can make choices now that may prevent environmental and economic disaster.

So let's take the extra effort. Let's walk, ride bikes and encourage automakers and our overnment to nut

and encourage automakers and our government to put more of an emphasis on alternative fuels.

anything goes, we have a couple suggestions about topics that should be discussed if you're seriously considering this option. Hashing out these points with your significant other helps set the limits of the open relationship.

Playing It Cool: The Smart Way To Go

A Slice of Relationship Advice from Corey Byers, jaded observer

After a brief hiatus, I have returned to offer some crucial advice on scoping out and scoring points with the one who makes you feel real hot.

feel real hot.

Three words can sum up my advice on how to navigate the choppy ocean that exists between newly interested parties: play it cool.

Now no one likes playing games, that's a given. However, you don't have to play games to play the game.

For instance, you meet someone while out with friends, numbers are exchanged—this is your cue to play it cool.

Calling to make wite the person got home all right is classy but

exchanged—this is your cue to play it cool.

Calling to make sure the person got home all right is classy, but calling twenty minutes later, or even the next morning to plan a date can come off as desperate. The key here is to refrain from coming off as overhearing or too eager. Instead, try waiting a day or two, or maybe even three before calling to follow up. Remember, act like you're too child to need the attention.

We are all guilty of building up high expectations for the newest blip

We are all guilty of building up high expectations for the newest blip on the radar, so the calmer you are about the whole follow-up, the less likely you are to get hurt.

Perhaps one of you is looking for something more serious. Mutual dates mean you are both into each other; when someone suggests you meet up with friends or at a party, it probably means they want to fool around as opposed to enjoying an intimate date.

Calling someone constantly when they don't return your calls or invitations means you are not playing it cool; they are not that into you, stop making excuses for them and move on. If you're not into someone else, tell them you are too busy to date and thank them for the offer.

If you don't believe me, I suggest reading, "He's Just Not That Into

You: The No-Excuses Truth to Understanding Guys," by Greg Behrendt and Liz Tuccillo.

Trust me, this book will apply to both sexes and should be in your personal library. The writers contributed to The hit TV show "Sex and the City," so you know it's good.

Anyway, flirting is part of playing the game too and can be effectived.

when executed correctly. However, constantly making small talk and avoiding work and other responsibilities kind of sends the message that you're desperate.

avoiding work and other responsibilities kind of sends the message that you're desperate.

It's OK to crack jokes and try to make someone laugh—that's flirting—but don't overdo it.

Saying "no" to an untimely invitation when you have other obligations is not turning someone down, it's showing that you are self-assured, have your own life and have responsibilities. Don't chase someone and leave your work, friends and life in the dust, play it cool: no one likes a cling-on.

A cardinal sin against playing it cool includes bringing up the following topics right off the bat exes, family problems, health issues, sexual disorders, dead pets, addictions and dependency issues.

If you're not sure about the topic and you foresee that it will lead to one or more awkward moments in the conversation, please don't bring one or more awkward moments in the conversation, please don't bring

more awkward moments in the conversation, please don't bring

One of indicased and it up.

The heavy personal issues should be discussed further down the road when you both feel comfortable enough with each other and are on the same page.

Initial conversations should be light, informative and casual; buzz-

In essence, everyone needs to take a damn chill pill; playing it cool boosts confidence and reduces the chance you will be hurt.

Eagles In Sync

Women's Lacrosse Crushes Marlins

BY MARIE PURKERT Staff Writer

"Who are you people and what have you done with my team?" screamed one frustrated Virginia Wesleyan College fan from the stands Tuesday. "You people" were the Eagles and they demolished the Marlins 19-4, marking UMW's fifth straight win for a 12-3 record thus far.

The Eagles came out strong from the start, giving Virginia Wesleyan a clinic on teamwork. The University of Mary Washington also showcased their near perfect transitions and use

of field space.

Head coach Dana Hall was pleased with the

We played well as a team," she said

"We played well as a team," she said. Senior team captain and 2005 first team CAC defender Caitlin O'Leary agreed.
"We worked together as a team and were able to not let them score," she said.
Not only were the Marlins only able to muster four goals, but they were completely shutout during the second half.

Virginia Wesleyan's frustration was evident on the field with overthrown balls and dropped

While the Marlins struggled with the basics, UMW dominated on offense and played unselfishly

Hall was impressed with the natural teamwork the field.

"We played as a unit," she said. "The camaraderie and chemistry that the team has is not something that can be forced, but we have it."

It was this chemistry that led to 19 goals for

the Eagles. Junior attacker Kaitlyn Barker led the the Eagles. Junior attacker Kattlyn Barker led the team offensively with five goals. However, seniors Karen Pickering and Callie Talbot, junior Meaghan O'Leary and sophomores Caitlin Erickson, Sarah Finney, Emily Talbot and Kristen Roscoe also found the net.

Sophomore goalie Meredith Deitrick secured

the win on the defensive side, stopping seven shots in the second half alone and finishing the game with 11 saves.

Finney credits UMW's defensive success to

"Our defense this year is really aggressive and putting a lot of pressure on the opposing attack," she said.

she said.

Although the regular season games are winding down, the season is far from over. The Eagles will face Salisbury today at 3:30 p.m at the Battlegrounds to play for the No. 1 spot in the

O'Leary is optimistic about the Salisbury

"Salisbury is the defending conference champs, but they just dropped to No. 3 in the nation with a loss against College of New

nation with a loss against College of New Jersey," Hall said. Caitlin O'Leary agreed. "If we play as a team we can give them a game," she said. The Eagles are pumped for today's game, but

The Eagles are pumped for today's game, but are already focused on the post season as well. According to Hall everyone is completely committed to the team. "We still have another month of our season, and have seniors who are so dedicated to the team that they will not walk in their graduation if the team receives a bid to the NCAA tournament," Hall said.

However, the picture was not as bright for UMW when their season began this year as the Eagles had to deal with the loss of graduated seniors as well as several other underclassmen their cuit.

Despite the early obstacle, Hall believes this

Despite the earry obstacte, Hall believes this actually brought the team together.

"We took the adversity from the beginning of the season (with seniors leaving and people quitting) and stepped up to fill the gaps and become a stronger team," Hall said.

The Eagles came together and went on to drop

Junior Meaghan O'Leary takes a shot at Virginia Wesleyan's goal during Tuesday's game. O'Leary scored two goals for the Eagles in their 19-4 win.

just three games. According to Hall, UMW is enjoying the season.

"They are fun to watch play and are having fun playing and with that they can play with anyone in the country," she said.

Finney agreed.

Finney agreed.
"I think that overall our team is really starting to work together and as a unit, which will definitely help us going into the tournament."

Next Game: Today 4:30 p.m. Salisbury

Sophomore Ashley Sifer aims for the fence during Tuesday's doubleheader against Shenandoah University. The Eagles swept the Hornets, 3-2 and 6-2.

Seniors Set School Record

BY STEPHANIE POTTER Staff Writer

Senior day held special acclaim this season for the University of Mary Washington softball program as two outstanding women set school

Seniors Erin Rantz and Abbey Wineland Seniors Erin Rantz and Abbey Wineland demonstrated outstanding dedication and talent as they set the bar for career wins (40 overall for Wineland), coupled with an all-time lead in at bats, hits and doubles for Rantz. Head coach Dee Conway praised the two

"Erin Rantz and Abbey Wineland have given "Erin Rantz and Abbey Wineland have given so much to this program, it's hard to put in words my appreciation and gratitude," she said. "I'm very lucky to have both players participate in my program. They have served the program, the entire athletic department and UMW quite well.

entire athletic department and UMW quite well.
Any records achieved during their tenure is the
result of hard work, dedication and
determination."
Wineland credits her catchers in particular for
her impressive career.
"A lot of the credit for my records goes to my
catchers over the past four years," she said.
"Catchers really do make or break a pitcher and Catchers really our make or oreax a picturer and a good catcher will get borderline strikes called by the way she frames. The pitch call sequence is really important also, and I've been lucky enough to have smart catchers that know how to fool the batters."

However, it was not just the catchers that played a role in Wineland's success.

"As for the shutout record, obviously that couldn't have happened if it wasn't for defense behind me," Wineland said. "Rantz has stolen so many hits from batters these past four years that without her there's no way I could have had as many as I do."

Rantz remained bursts."

Rantz remained humble about her success

Rantz remained humble about her success.
"I'm happy to have gotten the chance to do
what I've done in my career," she said. "Being a
four year starter has made it possible to break the
records that I did. However, with the hitters we
have in the current freshman, like Amy
[Edmondson] I'm sure they won't last long."
School records aside, the Eagle women came

to the plate determined to win in Tuesday's

to the plate determined to win in Iuesday's doubleheader against Sheanandoah University.

In game one, freshman Amy Edmondson opened the score with her fifth homer of the season to put the Eaglest up 2-0.

UMW never looked back from there while the learner to the control of t

Hornets struggled to catch up. Shenandoah finally evened the score in the fourth inning but Inaity evened the score in the fourth inning but freshman Cathy Hull's score off of Rantz's second double of the game in the fifth clenched the win for the Eagles, 3-2.

Throughout the seven inning stretch, Wineland allowed just three hits, striking out nine and walking one.

wineland allowed just three hits, striking out nine and walking one.

In game two, the Eagles fell behind in the fourth inning 2-0, but quickly recovered in the fifth to even the score off of double from sophomore Melissa Bjorklund. A double from junior Lindsey Painter in the sixth inning gave the Eagles their second win on the day, 6-2.

Overall, Conway was pleased with the game. "I'm extremely happy for the team," she said. "They played well. Our bats came around at the right time. We've been struggling a little on offense, pressing too much, [but] we seemed more relaxed today."

Edmondson attributes team unity to their success on the field.

"[We need to] keep up the intensity and the

success on the field.

"[We need to] keep up the intensity and the playing level we have set," she said. "We play extremely well together as a team. Everyone has a role on this team, its not just one person doing everything. That's what I like about this team."

In preparation for the CAC Tournament, Conway is pushing her team to keep their eyes on the final price.

the final prize.

me tinal prize.
"Our goal is to get better each time we step on the field," she said. "We want to keep working on the process. The key this weekend is staying relaxed and trusting their abilities. We've accomplished a great deal this season. However, they aren't satisfied. There's more to accomplish."

Three Up, Three Down For UMW

Baseball Beats Catholic For Third Time In Week, Advances To Semifinals

Junior Eric Fitzgerald gets out of the path of an errant pitch during Tuesday's game against Catholic University. Freshman pitcher Wes Hayden led the Eagles from the mound to an 11-2 win over the Cardinals. UMW will face York College of Pa. today in the Capital Athletic Conference semifinals.

BY DAVID SPENCER

The third time was not the charm for Catholic

In the third time was not the charm for Catholic University Tuesday afternoon.

In the first round of the Capital Athletic Conference tournament, 23rd ranked University of Mary Washington defeated the Cardinals for the third time in one week to advance to the semifinals.

After beating Catholic (15-20-1, 4-7) in two slugfest's last week, 14-9 and 23-12, the Eagles looked to keep the bats hot but improve on the

looked to keep the was not out and pritching.

Freshman pitcher Wes Hayden did just that for UMW, looking to keep his record perfect on the season as he stepped on the mound. After a rough first inning, Hayden settled down and threw seven solid innings

Catholic came out swinging in the top of the first as lead-off hitter Joseph Maca poked the ball into left, field for a single. After Maca stole second on the next pitch Catholic's Matt Rosner singled to left scoring Maca and putting Catholic up 1-0. Hayden would then get a 6-4-3 double play to kill the rally. This would be the last time Catholic would score until the fifth inning.

The Eagles looked like they would counter in the bottom of the inning with men on first and second with two out, but left empty handed when sophomore designated hitter Chase Townsend flew out to right field to end the inning.

It was in the second inning that the Eagles bats woke up. After junior third basemen Chris Catholic came out swinging in the top of the

woke up. After junior third basemen Chris woke up. After junior third basemen Chris Anderson and junior right fielder Ben James walked the Eagles got a break. With junior Ray Moore squaring around to sacrifice bunt, James had a lead off of first. Moore took the pitch for a ball but a snap throw to pick off James at first was errant and traveled into right field, allowing Anderson and James to both advance a base. On the next pitch Moore hit a sacrifice fly to center the score Anderson hims up the score a lat. This was only the beginning for the Eagles.

It took senior first basemen Brandon Cole to

officially wake up the bats. On a 2-2 count Cole got a fastball that he turned on and hit a towering home run down the left field line. "It was an easy swing really," Cole said. "On

"It was an easy swing really," Cole said. "On those kind of pitches you swing as hard as you can, but it was just an easy swing. I didn't think I hit it that hard, really I didn't feel it, but when I looked up and I saw the left fielder still trailing I thought it had a chance and what do you know, it went out. It was a good feeling really."

With two outs in the inning Anderson drew another welk and stole second again. He would

another walk and stole second again. He would another walk and stole second again. He would advance to third on a passed ball. James then drew another walk to place runners on first and third with two outs. James stole second and in the catcher's attempt to throw him out found the ball in center field allowing

Anderson to score from third

The next pitch thrown The next pitch thrown found its way past the catcher and to the back stop allowing James to score easily from third, pushing the score to 5-1 Mary Washington.

Junior left fielder Mike O'Donnell got the Eagles started in the bottom of the fourth with a bunt down the left field line, O'Donnell would advance

second on another errant throw by the

Cardinals pitcher. Cardinals pitcher.

After a Fitzgerald walk, Cole singled to left allowing O'Donnell to score easily. Fitzgerald advanced to third on the play and Cole strolled into second base on the throw to third base. Designated hitter Chase Townsend singled up the middle to score both Cole and Fitzgerald pushing to score to Second Se

The inning would end when Chris Anderson hit a hard line drive that the pitcher snagged and doubled off Townsend at first.

In the top of the fifth Catholic got their lead off man on when Rivera hit a ground ball that shortstop Ray Moore could not handle. He scored on a double to deep left center field by the catcher. Yet again, though, Hayden settled down and Catholic did not get another run that inning

and Catholic did not get another run that inning or the rest of the game.

The bottom of the fifth found the Eagles getting the luck of the draw. Sophomore Ben James got it started by doubling down the right field line. After an error on the third basemen that allowed Moore to reach first, junior second basemen Tom McDermott came to bat with men first and second and nous. On the first right on first and second and no outs. On the first pitch he lifted the ball over the first baesman, allowing

James to score from second and Moore to advance to third.

Junior Eric Fitzgerald produced a hit that looked like it belonged more on the golf course than the baseball field, as ropped over the

advancing Fitzgerald to third. The Eagles, up 11-2 now, did not score again in the game.

Hayden showed signs of tiring in the top of the seventh but was able to close the door on a solid performance, scattering six hits

solid performance, scattering six nits while striking out four and only walking one to keep his record spotless at 4-0.

"It wasn't any different to me than any other game," Hayden said. "The first couple of innings I was leaving the ball up and I just had to make the adjustment."

Freshman Dan Seymour came in to finish off the earne, nitching two innings to allow two hits.

the game, pitching two innings to allow two hits and striking out two.

and striking out two.

All but one starter had at least one hit as

UMW was led offensively by senior Brandon
Cole who went 3-5, scoring two runs and batting
in another three. Eric Fitzgerald, Chase
Townsend, and Tom McDermott all had two hits
in the contract.

in the game The Eagles will travel to York College of Pennsylvania today as they play in the second round of the double elimination CAC tournament at 3:30. The Eagles split the regular season series with York, losing 17-14 at York and winning 14-1 at home.

The first couple of innings I was leaving the ball up and I just ahd to make the adjustment.
